Partner Universities:

ABOUT THE CONFERENCE

The 21st Biyani International Conference (BICON 2026) brings together distinguished academicians, industry leaders, scientists, innovators, and research scholars from India and Japan to exchange knowledge, share best practices, and explore opportunities for collaboration.

The conference aims to strengthen India–Japan academic and industrial partnerships by fostering dialogue on contemporary challenges and emerging opportunities. Key themes include international education, healthcare and well-being, faculty development, industry–academia collaboration, skill development for employability, research commercialization, innovation, and entrepreneurship. Through expert talks, research presentations, and networking opportunities, BICON 2026 seeks to promote meaningful partnerships, encourage knowledge sharing, and contribute to sustainable growth and innovation in both nations.

ABOUT THE ORGANIZATION

Biyani Group of Colleges is one of Rajasthan's leading educational organizations, comprising 21 institutions offering more than 60 programs across diverse disciplines, including science, management, technology, education, healthcare, and the humanities. The Group is committed to academic excellence, research, innovation, and skill development, providing students with a dynamic learning environment that fosters both personal and professional growth.

For over two decades, Biyani has actively promoted international collaborations, particularly with Japan, creating valuable opportunities for academic exchange, research partnerships, and global exposure for students and faculty. Through its strong emphasis on industry engagement, innovation, and holistic development, the institution continues to empower young minds to become competent professionals and responsible global citizens.
